

R-134a Charging Tool / Quick Coupler

R-134a Charging Kit

PR1379

Reusable brass dispensing rate with hoses and R-134a quick coupler charge A/C systems with R-134a can tap with 1/2" ACME fitting

PR2674 (1/4"SAE Female x 1/4"SAE Male)

PR2675 (1/4"SAE Female x 5/16"SAE Male)

Multi-function charging gun, all kinds of refrigerant available (HFC, HCFC, CFC), high/medium/low pressure gauge with calibrations

PR9001

Easy-to-use charging kit, including 12' 1/4"SAE hose, 2" R-134a pressure gauge, lock low side quick coupler brass can tap. (Manual exhaust available)

PR9001

PR1383

1/2" Acme Fanti-blowback fitting, 1/2" Acme male fitting, with R-134a pressure gauge

PR1383

PR1385

Suitable for all refrigerants, 1/2" Acme/1/4" Acme/5/16" Acme female fitting, and ball valve 1/2" Acme/1/4" Acme/5/16" Acme male fitting, multi-purpose pressure gauge (R-134a, R-22, R-12, R-502, R-404, R-407c, R-507, R-410a)

PR1385

Can Tap

PR1381

R-134a Can tap valve with high pressure hose and quick connect fittings

PR1371

Brass top can tap 1/4"SAE

PR1372

Brass top can tap 1/2"ACME

PR1382

R-134a Can tap valve with high pressure hose, pressure gauge and quick coupler

PR1373

Can tap 1/4"SAE

Can Tap

PR006 (R-12/R-134a Can tap)

PR172 (R-134a Can tap) / PR173 (R-12 Can tap)

1. With side tap, handles slip around and close to pierce the can
2. Small inserts for use with lubricant cans.
3. Check valve on side taps help prevent back pressure into can
4. Not for use with other refrigerant

Automotive Service Coupler

R-134a Manual Coupler 1/4"SAE /1/2"Acme

PR1318A (1/4"SAE)

PR1318C (1/2"Acme)

R-134a Manual Coupler 1/4"SAE

PR1306

R-134a Manual Coupler 14mm

PR1307

R-134a Manual Coupler 14mm

PR1304 (14mm)

PR1304H (14mm Male x 1/4"SAE Male)

R-134a Manual Coupler 1/4"SAE

PR1305A (1/4"SAE)

PR1305C (3/8"SAE)

R-134a Valve Core Tool

PRVC035

PRVC038 (With charging function)

1. Fits HI & LO service with standard size valve cores
2. Built-in ball valve retains charge & allows access to A/C system
3. perfect for vacuum, charge, cores and recovery
4. Excellent for replacing valve cores without discharging the system and for speeding recovery and recharging without losing charge

A/C System Flush kit

PR6043

PR6044 (With pressure gauge)

1. Includes flush gun, hose, canister and canister adapter
2. Designed to work with any light weight flushing agent which can be mixed with pressurized air
3. Excellent for quickly and effectively removing refrigerant oil debris during retrofitting or compressor replacement.
4. The attached nozzle directs the flow solvent without sprayback
